PROFILE

As a Web Developer with a strong Art & Design background, I actively cultivate my skills through hands-on project work and continuous learning. My resilience and motivation drive me to embrace any opportunity that contributes to my career growth.

WORK EXPERIENCE

Web Developer - Front-end Engineer

Mettle Capital, London - Sep 2023 to present (freelance)

Mettle Capital is a dynamic tech startup at the forefront of innovation in Open-Source Intelligence. Within this innovative environment, I play a vital role in driving the development of a state-of-the-art web application. My responsibilities span the creation of intuitive user interfaces, compelling design elements, and flawless front-end functionality, leveraging a robust tech stack comprising React, Blazor, Tailwind, and .Net.

Full-Stack Web Development Teaching Assistant

2U - Sep 2023 to present (part-time, remote)

Teaching Assistant for the Full-Stack Web Development Bootcamp at the University of Birmingham, leading and mentoring students. Facilitating multiple teams using Agile methodology for group projects, daily stand up meetings and sprint review sessions.

- Assist in the online delivery of a modern, full stack web development curriculum (HTML, CSS, ES6 JavaScript, jQuery, Bootstrap, Node.js, Express, SQL, MongoDB, GraphQL, RESTful APIs, PWAs, React.)
- Evaluate student projects and provide constructive feedback.
- Provide accurate and concise answers to student questions.

Junior Web Developer

Wardour Communications, London - Jan 2022 to Jan 2023

My work at Wardour consisted of creating pixel perfect web sites and web applications, ensuring they adhere to W3C standards using HTML, CSS, and JavaScript. I also used a variety of JavaScript and CSS frameworks and libraries to deliver interactive engaging web experiences.

Freelance Web Developer

House of Raf - Jan 2021 to present
